

Profile

I am a Department of Innovations and High Technologies of MIPT student, third year. I have a lot of soft skills: responsiveness, sociability, project presentation ability. I'm eager in solving problems and can think out of the box.
Looking forward to becoming a part of Artemy Lebedev Studio, since I have quite a lot of experience and I love your ideology.

Education

Sep 2017 — Jun 2021

DIHT MIPT, Bachelor degree.

Department of Innovations and High Technologies on Applied Math and Physics ([more about](#)), my average mark is 8.3/10.

Experience

Jul 2019 — Aug 2019

Project manager, ABBYY

I had an experience of working in a mobile technologies department. I have written several concurrency analysis.

Skills

React	Experienced	HTML/SCSS/JS	Experienced
Photoshop	Experienced	Project management	Experienced
Illustrator	Experienced	Figma	Experienced

Courses

Sep 2017 — May 2019

Mathematical analysis, Linear algebra, MIPT

Sep 2017 — May 2018

Python, C++ Pro algorithms, HTML/SCSS/JS + React full-stack, MIPT

Sep 2017 — May 2019

Probability theory and Measure theory, Statistics, MIPT

Languages

English	C2	German	A2
----------------	----	---------------	----

Hobbies

Digital photography, photo editing and mobile photography, dancing, painting, filmmaking.

Projects (Available on [GitHub](#))

Apr 2020

[Website for the game](#) — this is a webpage I created for the game we built with a team.

Mar 2020

[Webpage for portraits](#) (a bit not finished) — I paint digital and real portraits, so I wanted to build a webpage for it.

Sep 2019 — Dec 2019

[Frontend on React](#) — Internet shop frontend on react (over 4k lines of code).

Oct 2019

[Design project in Figma for previous app](#) — A full design project for Desktops, mobile version [here](#).

Mar 2020 — Apr 2020

[iOS App](#) — Clone of Instagram basically, using Instagram API with a cute minimal design.

May 2020

[Design of a CV](#) — A design reference for CV (actually built with code in real life, but I can't show it here).
